DEEPAK

UI/UX DESIGNER

New Delhi, India | +91 7827774286 | dy753989@gmail.com | Behance | LinkedIn

PROFESSIONAL SUMMARY

UI/UX Designer with a background in English Honours from Delhi University, blending structured communication and storytelling with practical skills in user research, information architecture, wireframing, interface design, and interactive prototyping. Completed an end-to-end e-commerce UX case study grounded in primary survey research with 7 users and competitive benchmarking of Amazon, Flipkart, and Croma. Proficient in Figma, Adobe Photoshop, Adobe XD, Canva, and foundational HTML/CSS/WordPress. Dedicated to creating intuitive, user-friendly digital experiences supported by scalable UI components and realistic interactive prototypes.

TECHNICAL SKILLS & COMPETENCIES

UX Methodologies: User Research, Surveys, Competitor Benchmarking, User Personas, Information Architecture, User Flows, Wireframing (Lo-Fi to Hi-Fi), Usability Walkthroughs

UI & Interaction: High-Fidelity Prototyping, Design Systems, Auto-Layout, Components & Variants, Responsive Layouts, Typography, Color Systems, Micro-interactions

Design Tools: Figma, Adobe Photoshop, Adobe XD, Canva

Web & CMS: HTML5, CSS3, WordPress

FEATURED UI/UX PROJECTS

E-Commerce Shopping Experience – End-to-End UX Case Study

Figma

- Conducted qualitative and quantitative primary research surveying 7 everyday users to identify critical friction points in product discovery, filtering, and purchase decisions.
- Performed competitive benchmarking against Amazon, Flipkart, and Croma, analyzing layout patterns, information density, review credibility, and checkout funnels.
- Translated user insights into structured personas, task flows, information architecture, and low-fidelity wireframes before moving to high-fidelity design.
- Built a scalable UI component library using Figma Auto-Layout and Variants (navigation bars, product cards, dynamic filters, pricing displays, and action buttons).
- Developed an interactive, high-fidelity clickable prototype in Figma to demonstrate streamlined comparison and checkout flows.

WanderScape – Travel Exploration & Booking Experience

Figma, Adobe Photoshop, Canva

- Designed an end-to-end responsive web landing page combining visual storytelling and conversion-driven section layouts.
- Engineered interactive prototypes featuring custom micro-interactions, calendar date selectors, and transitions to simulate real-world booking flows.
- Created custom promotional graphics and visual assets using Adobe Photoshop and Canva to establish cohesive branding.

Amazon Web & Mobile Interface Recreation & Prototyping

Figma

- Recreated key web and mobile UI screens of the Amazon e-commerce platform to practice precision layout replication, spacing, and typographic scaling.
- Constructed high-fidelity interactive prototypes to simulate end-to-end navigation, catalog browsing, and checkout user flows in Figma.
- Practiced component structuring, Figma Auto-Layout, and interaction states across complex, high-density product listing interfaces.

EDUCATION & CERTIFICATIONS

Certification in UI/UX Design (6 Months) — VSIT Institute, Dwarka, New Delhi — **2026**

B.A. (Honours) in English — University of Delhi — **2022 – 2025**

M.A. in English — Indira Gandhi National Open University (IGNOU) — **2026 – Present**
